Zhejiang Pengyuan New Material Co., Ltd

浙江鹏远新材料股份有限公司

A Responsible and Trustworthy Enterprise

Enterprise culture

Company Profile

Pengyuan is based in Hangzhou and was founded in 2004, a city enjoying convenience of two adjacent ports: Shanghai and Ningbo. The enterprise administers 9 affiliated subsidiaries, creating an industrial ecology supported by nanomaterials, eco-friendly technology, bio-medicine and internet big-data. Our stock code is 836588. It includes Five division.

I、New Materials Division

◆ Zhejiang Pengyuan New Material Co., Ltd

Products: New nano materials、building insulation materials、Cold-chain Insulation materials、Waterproof flexible packaging materials.

◆ Changzhou Lianke Chuangjia Composites Materials Co. Ltd

Products: PE/PP Woven fabric、PE/PP Woven fabric coated PE、PP/PE weed control mat、PP woven geotextile、PP woven webbing

◆ Hangzhou Pengshuo Import and Export Co.,Ltd

All products from each company are being exported by Pengshuo.

II、Aluminizing Composite Material Division

Products: Metallised PET, CPP, OPP, PE

III、Environmental Protection Technology Division

◆ Hangzhou Renmin Eco-tech Co., Ltd

Products: paper cups, paper food containers and plastic food container.

◆ Hangzhou Jiangliuer Technology Co., Ltd

IV、Special Paper Division

◆ Zhejiang Pengsheng Paper Industry Co.,Ltd

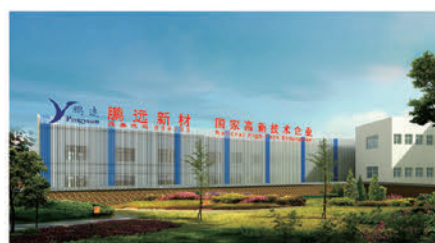

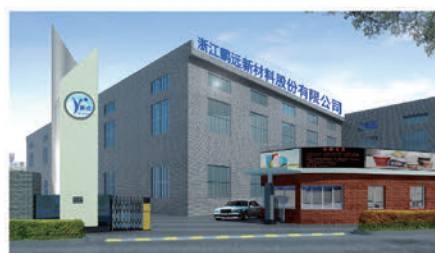

◆ Zhejiang Kaishun Paper Industry Co.,Ltd

Products: special pasting paper, Filter paper, Lable paper, Cotten Paper

V、International Business Division

◆ Hangzhou Pengshuo Import and Export Co.,Ltd

All products from each factory are being exported by Pengshuo.

CONTENT

◆ Products

1

New Nano Material Series

Nano air bubble reflecting layer for long distance heating network
New nano thermal insulation materials for modern farming.

2

Green Building Insulation Material Series

FR Bubble Foil /MPET insulation material
FR XPE&EPE & IXPE foil/ MPET insulation
Woven Fabric Foil / MPET composite material
Fiberglass Cloth Foil / MPET insulation
Paper Aluminum foil/ MPET
FSK insulation

3

Advanced Metallised Film Series

MPET、MCPP、MOPP、Metalized PE

4

Aluminum Foil Composite Film Series

PE/Aluminum Foil
PET/Aluminum Foil
Aluminum Foil/PET/PE
PET/Aluminum Foil/PE
PET/Aluminum Foil/NY/PE
PET/Aluminum Foil/NY/Kraft Paper
Aluminum Foil/Scrim/PE

5

Woven Fabric Series

PE /PP Woven fabric
PE/PP Woven fabric laminated PE/PP
PP/PE weed control mat
PP woven webbing
PP woven geotextile

6

Nonwoven Fabric Series

Nonwoven fabric coated PE
Aluminum foil/MPET nonwoven fabric

7

Food Wrapper Series

Parchment Baking Paper Aluminum Foil
Butter Wrapper paper Aluminum Foil
Paper MCPP/MPET

8

Special Paper Series

Pasting paper、Filter paper、Lable paper、Cotten Paper

Parts of Machinery & Warehouse

1、New nano material series

◆ New Nano Reflective Bubble Materials

Products:

Feature:

1. Light weight, cost effectiveness. Gram-weight is 250–350g/M2. No toxic and pollution-free, easy application.
2. Thermal insulation, waterproof and self-clean, thermal conductivity is 0.031w/m.k (normal temperature)
3. Nano material strengthens the characteristics of thermal insulation. Oxidation resistance, corrosion resistance and self-cleaning.
4. This new material combines special technology of long distance heating network and traditional normal materials.
5. It makes nearly 4 times transmission distance and reaches 40 Kilometers, which played an important role fully reasonable utilization of thermal resources.
6. It highlight the effect in pipe network transformation and attains the purpose of saving work, time and resources. Using this new type materials, give the pipe a “warm body armor” with the function of lightweight, moisture-proofing, anti-corrosion and thermal insulation.

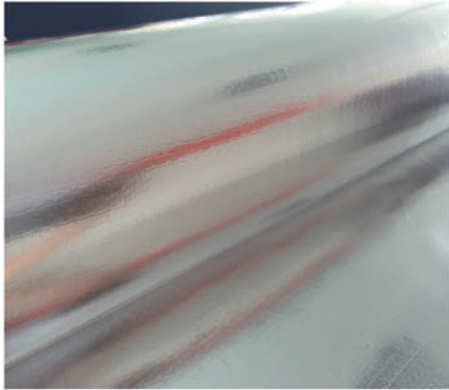

Application:

They are being widely used in industrial long distance heating network pipeline, nuclear power network, large ship, national defence industry and so on.

◆ Modern new Nano insulation material for farming

Products:

Features:

- 1、Excellent thermal insulation:geat preservation in winter and heat insulation in summer ,effect is significant.
- 2、Excellent self-cleaning:anti-dust,anti-fouling,anti-spiders spinwebs,anti-pesticide residue and accumulation.
- 3、Microwave diffusion cycle function:prevent the loss of indoor temperature, promote the microcirculation of indoor temperature and maintain the temperature relatively balanced and uniform..
- 4、Excellent Anti-corrosion:acid resistant, alkaline resistant Life time can up to 10 years or more.
- 5、Light weight:the install of new henhouse and reform of henhouse both simple and convenient.
- 6、Save coal in winter: save about 45% coal per henhouse, the inner temperature difference vary from 15 -20℃ to 4-5℃;High heat insulation in summer: can make the inner temperature whole drop 2-5℃.

Application:

- 1、As the Coal-Fired is reduced, it can greatly reduce the toxic gas content of CO due to Coal-Fired. It is beneficial to the growth, development and immunity of broiler.
- 2、Low investment: earn the investment cost within one year and constant profile
- 3、They can be used in Modern farming henhouse, green buildings etc.

2、Green building insulation material series

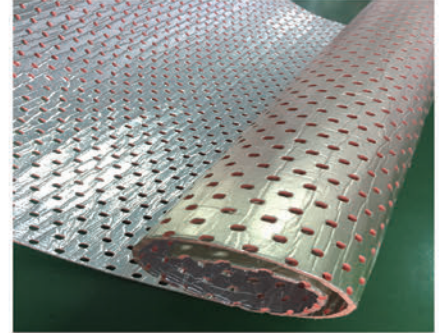

◆ Fireproof Antiglare Foil XPE&EPE Insulation

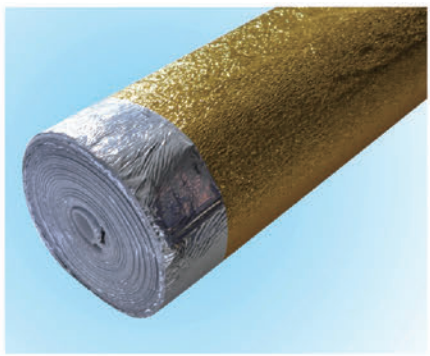

Embossed FR Alu PE Foam

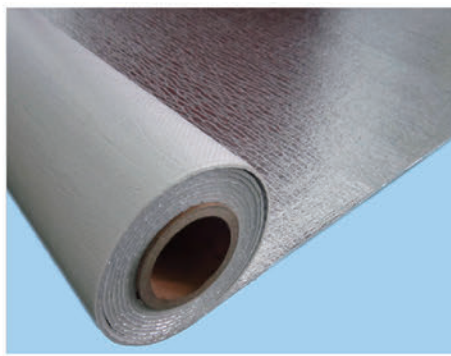

Antiglare Thermal break

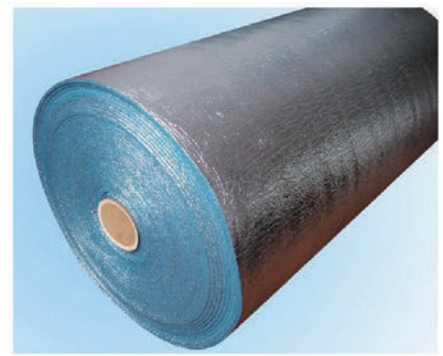

Breathable Antiglare Foil XPE

MPET/EPE/MPET

Alu /EPE/Woven

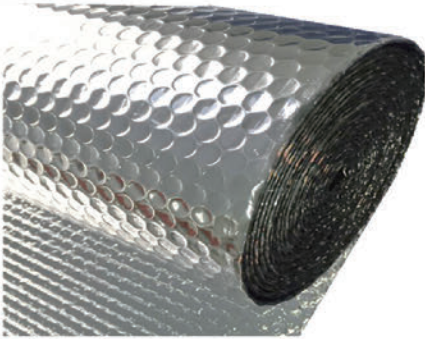

Alu /Woven/Foam/Alu

Application:

Building Insulation、Pipe insulation、Ice bags、Pack wine、Pool cover

◆ Antiglare Fireresistant Bubble Foil/MPET Insulation

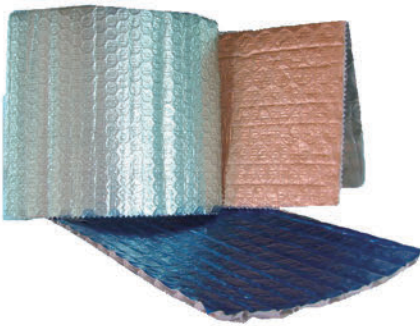

MPET/bubble/MPET

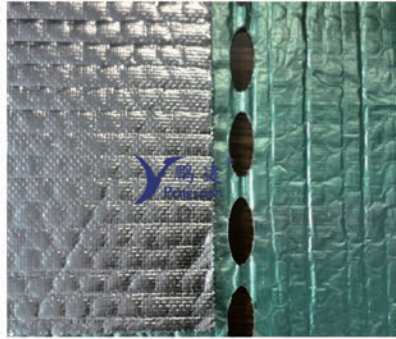

Colorful MPET bubble

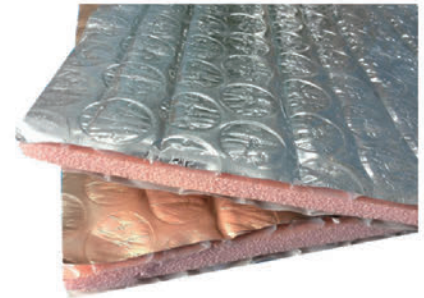

Alu/bubble/bubble/Alu

Antiglare foil bubble woven

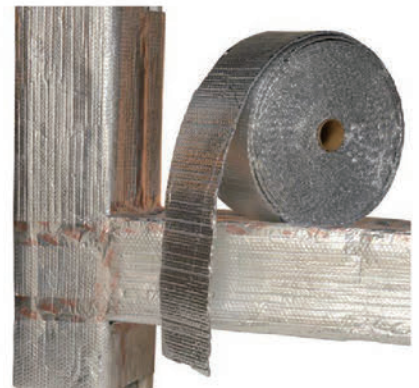

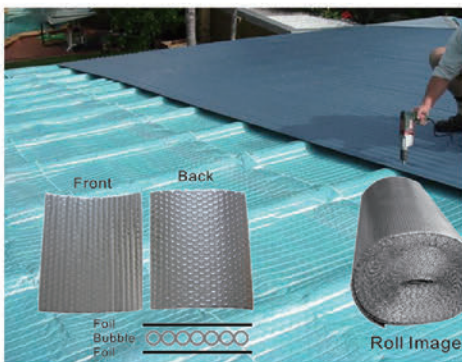

Breathable bubble foil

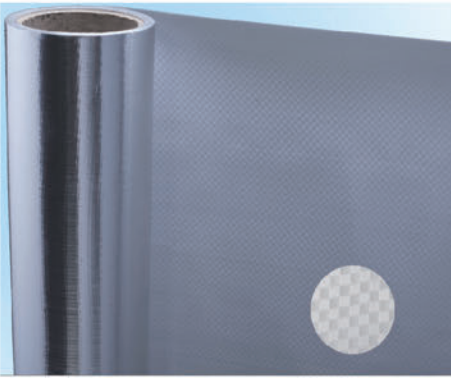

FR bubble foam foil

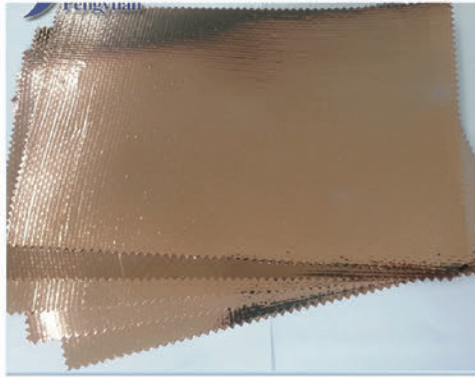

Application

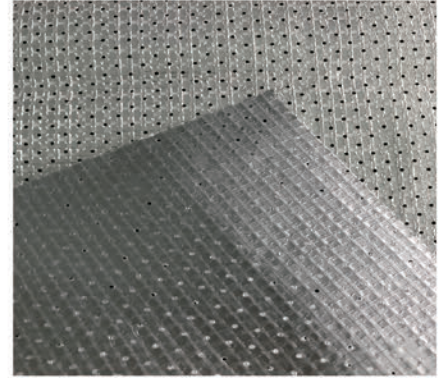

◆ Woven Aluminum Foil/MPET

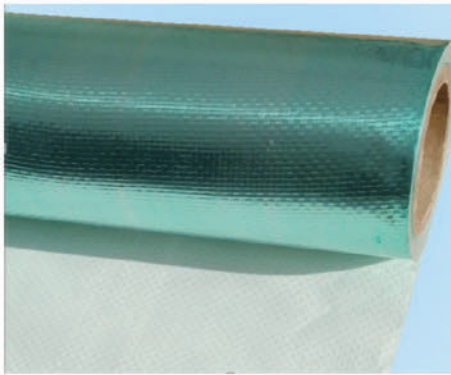

Metallised PET/Woven

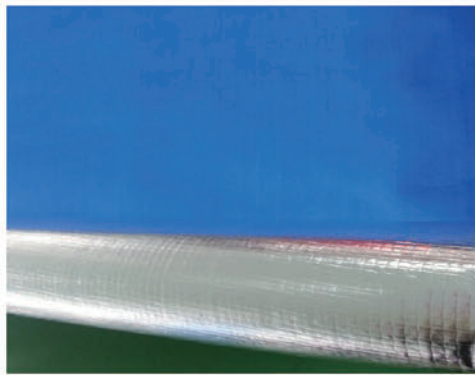

Radiant barrier

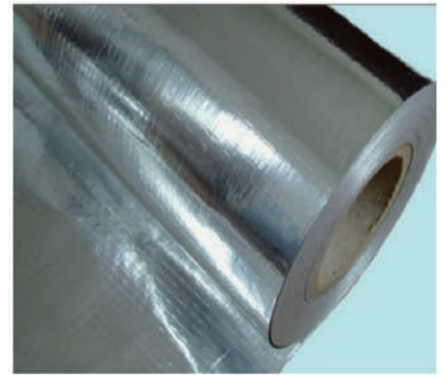

Night blind

Antiglare FR Foil Woven

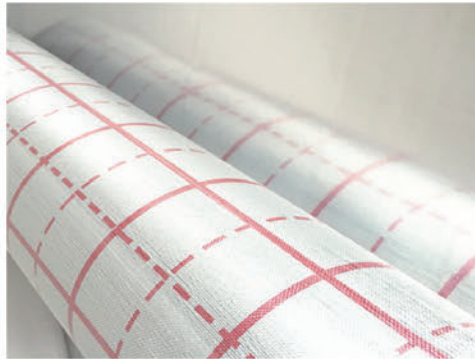

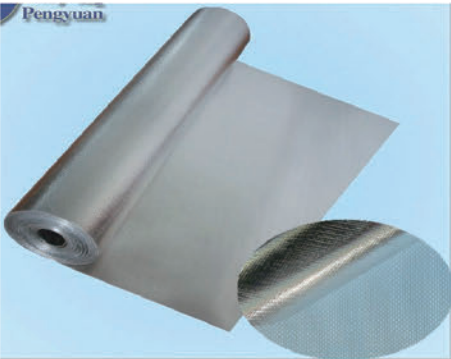

Wall wrap/roof sarking

High strength Foil Woven

◆ Fiberglass cloth Alu foil/MPET

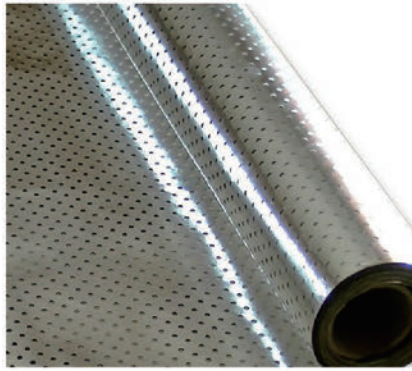

Application:

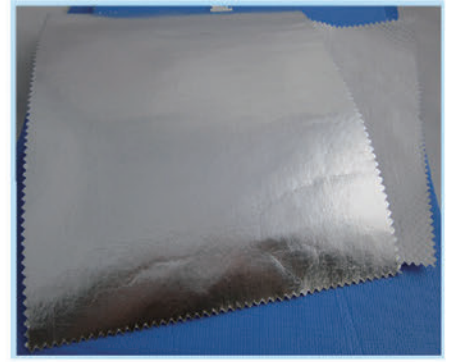

◆ Kraft paper Aluminum foil

Paper Foil

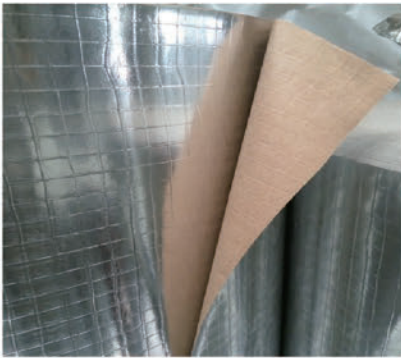

Breathable Alu Kraft paper

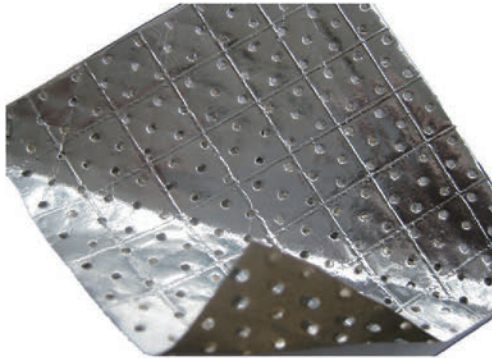

Foil Kraft Woven

◆ FSK、MSK Insulation

FSK

Perforated FSK

MSK

Application:

3、Advanced Metallised Film Series

◆ Metallised PET /BOPP /CPP /PA /PE

MCPP

MPET

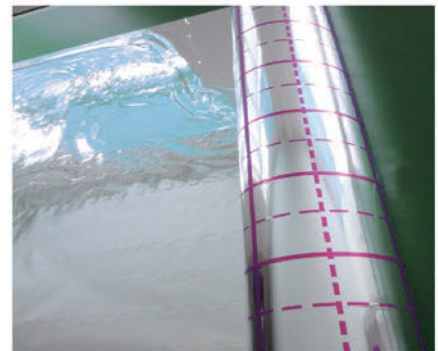

MOPP/PA

Hologram Heat Transfer-film

Colorful Metallised film

Printed MPET coated PE

Advantage:

Size: Width: 50mm~2550mm, Max Length: 36000m/roll

Application:

Packing food, pharmaceuticals, photovoltaic system, cosmetic, emergency rescue, electronic products, chemical, agricultural, label, printing, decoration, lamination, metallic yarn, golden & silver paper card etc.

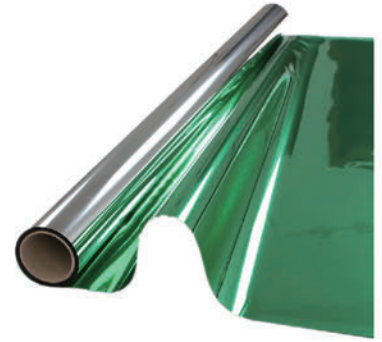

4、Aluminum Foil Composite Film Series

Aluminum Foil/PET/PE

Printed Aluminum Foil

Antiglare Aluminum Film

Fire-resistant Aluminum Foil

Waterproof film

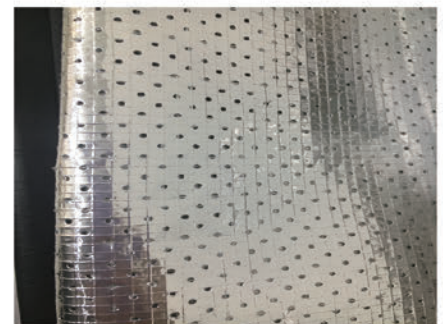

Decoration film

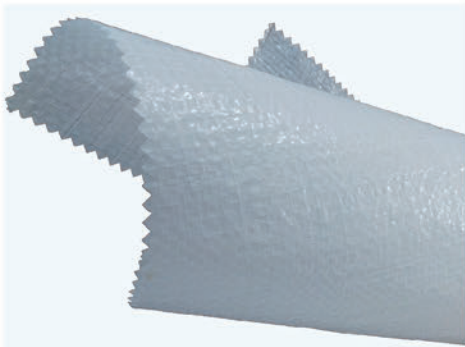

Advantage:

Max Width: 1.85m、 Print: 7 color

Application:

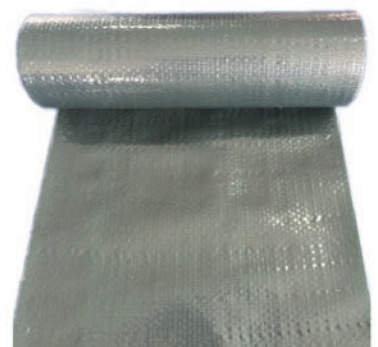

5、Woven Fabric Series

PE FR woven fabric

reinforced woven fabric

PP woven geotextile

weed mat control woven

Printed woven coated PE

PP woven webbing

Application:

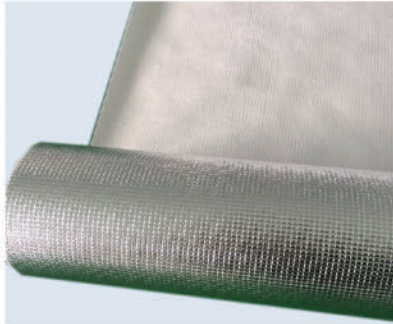

- 1, To laminate with MPET,Alu foil,Foam to be insulation materials
- 2, To make bags,Ton bags,geotextile,gardening bags,tarpaulins,webbing,woven tapes

6、Nonwoven Fabric Series

Nonwoven coated PE

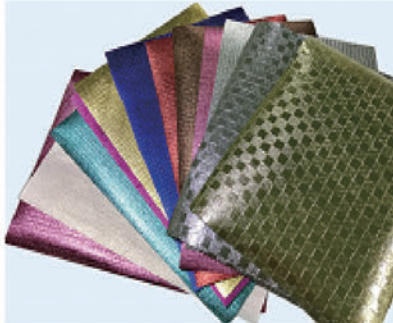

Nonwoven MPET

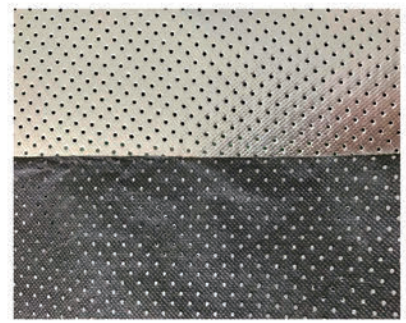

Nonwoven Colorful MPET

Nonwoven aluminum foil

Texture Nonwoven MPET

Perforated MPET nonwoven

Application

- 1, Decoration Material
- 2, Table Cloth
- 3, urgical dressing
- 4, Garment Bag
- 5, Shopping Bag
- 6, Gift Bag
- 7, Shoe Cover
- 8, Car Cover
- 9, Pallet cover

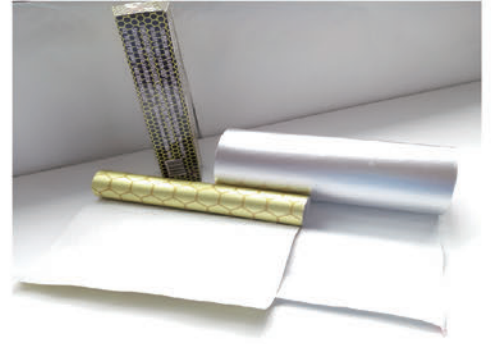

7、Food Wrapper Series

MCPP paper

Alu foil paper

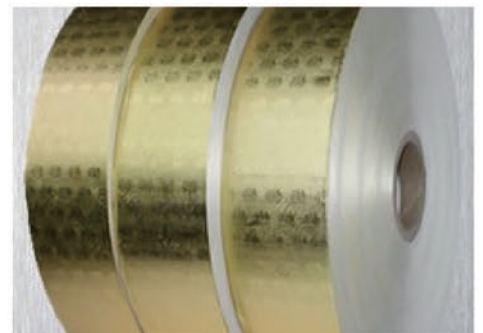

Alu foil parchment paper

Baking paper

Wrapper paper

Butter wrapping Paper alu foil

Application :

- (1),to make food package bags,coffee bags,sugar packaging bags,
- (2),to pack butter,meat,ice cream,cigarette

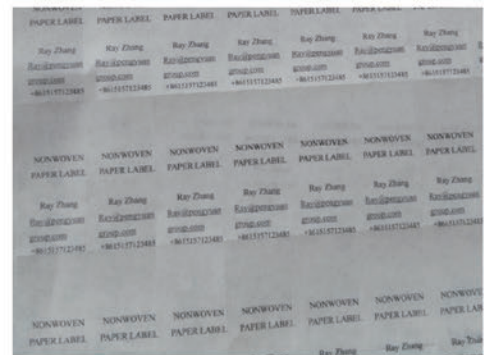

8、Special Paper Series

Pasting paper

Filter paper

Good tear strength washable printable paper

Desiccant wrapping paper

Label paper

Cotten paper

Application:

- (1), Pasting paper for lead acid battery plate
- (2), Filter paper to make Tea bags, seasoning, traditional Chinese medicine packaging, coffee filter paper packaging, heat sealable coffee filter paper desiccant wrapping paper
- (3), Label paper to make Care label, flag tag, main label, law label of electronic devices, stick for laundry room.

Research and Test Center

[illegible]

Certificate Of Fda Registration
201204-201302

This is certified that:
At The Address Stated Below Has Completed U.S. FOOD AND DRUG
ADMINISTRATION Food Facility Registration And Test Through MANTONG.

SHANDONG CHENMING PAPER HOLDINGS LIMITED
No.595 Chenming Industrial Group Shengcheng street,
Shouguang,Shandong,China P.C

Product Description	Food Package Base Paper
Test Performing Date	07-MAR-2012—— 12-MAR-2012
Report No.	J00810569
Test Requested	Determination of chloroform-soluble extractives residue in components of paper and paperboard in contact with aqueous and fatty foods. FDA CFR 176.170.
Test Laboratory	USA NSF International

Reg No. 15444177530
